

REFRACTOMETER

SPECIAL TOOLS

Ensure Your DEF Solution is the Correct Specification

Check the urea content in your DEF solution easily and quickly with a refractometer, now available for purchase from JLG. This go-to tool will ensure the DEF solution is the correct specification. It is recommended by the engine manufacturer for JLG to use only DEF solutions that maintain a 32.5% (+ or -1.5%) urea content by weight.

Features and Benefits Include:

- Easy to read Ethylene Glycol (C° and F°) scales & Diesel Exhaust Fluid (DEF) urea concentration (%) scales.
- Measures the freeze/boil-over protection of ethylene glycol based coolants & urea content in DEF
- Length of refractometer: 6.75"
- Kit includes:
 - Black case
 - Refractometer
 - Instructions
 - Fluid sampling pipet
 - Calibration tool

Machine	Description	JLG Part Number
JLG® and SkyTrak® telehandlers with Tier 4F Cummins Engines	Refractometer kit	70011925
